this game makes no sense. What are the rules?. Very Calming. It's not bad but not great either. There are many good ideas like team building, but they were not played out very well. Characters are two-dimensional and lacks depth. You could almost guess what a certain person would say or do in a certain situation. Their "big secrets" does nothing to make them more interesting or attractive. And the most important thing: story just gets blander and blander after each chapter.. Quiver♥♥♥♥♥s Terrible Tale for Terrible Parents to Read to Their Equally Terrible Children is a fun little romp through more of the mind of Quiver♥♥♥♥♥ Although short, the game features multiple endings and many laughs for the Terrible Parent in all of us.. Littered with all kinds of frustrating bugs. Cruise altitudes are too high. Always loads the ATC messages and view settings from one of my previous flights. Autopilot goes kaput if you try to load a saved flight.

Clearly more effort needed to go into testing this package.

Honestly I don't know where to start. The only thing I have to say is that THIS is the kind of Sonic game I like.

The thing is it began as fan sonic game. It got changed to be its own game after all, but the thing is \u2013 it's still kind of Sonic game. All the characters are kind of the same idea-wise. Overall gameplay is pretty much the same. Yes, there is some kind of plot, but it's not really exciting, it just exists. Yes, there's great original soundtrack, but it's nothing really that stands out for me. But Freedom Planet managed to change all elements in a way it should be.

The thing is classic Sonic games aren't actually that good. It's not something to be ashamed of: just time passed and showed some flaws in the game. Original StH games have somewhat an identity crisis, they tend to stop player when they shouldn't, the rings HP system isn't really good. Freedom Planet gets everything that made people love old Sonic games \u2013 speed, multiple ways to complete a level, challenge and all that with great platforming levels \u2013 but also got rid of old flaws. FP doesn't stop player without being necessary and it doesn't feel out of place, separate "score" pickups, energy and HP didn't make everything harder to understand, but led to somewhat consistency.

In the end it feels kind of weird to say, but Freedom Planet is somehow the best Sonic game, but it's not either game about Sonic or game from Sonic Team. And it's still quite challenging, interesting to play and I didn't lose interest while replaying it again and again.. I am a huge HOG fan but this game was not a very good one. It was the first time I actually requested a refund for a hog game. The voice overs are terrible and the graphics are pixelated on wide screen. Also for me it's just not a fun game with a good story line. I don't recommend this game despite the other flood of positive reviews but try it for yourself and see if you want to take the chance. I did give it a fair half hour gameplay to see if it would get better but by part two I could not take anymore.. Darn Good Story~

Adorable Characters~

Pretty neat soundtrack~ (CD when?)

Very interesting setting~

If you're interested, give it a shot~

'nuff said.. awesome and fun game but it can be very ragey just one con the controls are a bit laggy for me also to help out the dev made a video to show a quick demo of the game <https://youtu.be/iM2lcXvDQuA>. Highly polished rabbit down a hole game. This is probably very funny for "Scoops".

I found the difficulty somewhat frustrating and I couldn't see myself pouring a ton of time into getting better.

Would love to have checkpoints or something.

Pretty good though, pretty good.
